(Bundesnotarordnung – BNotO)

The Code shall not apply to the district of Karlsruhe Higher Regional Court pursuant to section 115 sentence 1; section 115 was repealed by Article 1 of the Act of 15 July 2009 (Federal Law Gazette I, p. 1798)

Notwithstanding Annex I Chapter III Subject Area A Part 1 No. 8 of the Unification Treaty (Einigungsvertrag) of 31 August 1990 read in conjunction with Article 1 of the Act of 23 September 1990 (Federal Law Gazette II, p. 885, 921), the Code entered into force in the five acceded Länder (Article 1 (1) of the Unification Treaty) with effect from 8 September 1998 pursuant to Article 13 (1) in accordance with the provisions of (2) to (11) of the Act of 31 August 1998 (Federal Law Gazette I, p. 2585) (Third Act to Amend the Federal Code for Notaries and Other Acts (Drittes Gesetz zur Änderung der Bundesnotarordnung und anderer Gesetze)); pursuant to Annex I Chapter III Subject Area A Part IV No. 1 Point b) of the Unification Treaty, it shall apply, with provisos, to the acceded part of the Land of Berlin.

Part 1
Office of notary

Division 1
Appointment as notary

Section 1
[Nature of profession of notary]
Notaries are independent holders of a public office who are appointed in the Länder to record legal acts (‘notarial recording’) and to perform other tasks in the field of the preventive administration of justice.

Section 2
[Applicable provisions; profession of notary]
Unless otherwise provided, notaries shall be subject only to the provisions of this Code. They shall bear an official seal and use the official designation of ‘Notarin’ or ‘Notar’. Their profession does not constitute a trade.

Section 3
[Notarial office as main occupation; lawyers commissioned as notaries]
(1) Notaries shall be appointed for life to exercise their office as their main occupation.
(2) In those judicial districts in which the office of notary was exercised exclusively as a secondary occupation on 1 April 1961 only lawyers will continue to be appointed as notaries for the duration of their membership of the bar association competent for that judicial district to exercise the office concurrently with the profession of lawyer (lawyer commissioned as notary; Anwaltsnotar).

(3) (repealed)

Section 4
[Requirement for appointment]
As many notaries are to be appointed as are required to meet the needs of the proper administration of justice. In particular, consideration is to be given to ensuring that the consumers of legal services are adequately supplied with notarial services and that an orderly age structure is maintained within the notarial profession.

Section 5
[Qualification to hold judicial office]
Only those who are qualified to hold judicial office pursuant to the German Judiciary Act (Deutsches Richtergesetz) may be appointed as notary. The Professional Qualifications Assessment Act (Berufsqualifikationsfeststellungsgesetz) shall not apply.

Section 6
[Aptitude for office]

(1) Only those applicants are to be appointed as notaries who are suited, on the basis of their character and previous performance, to hold the office of notary. Applicants may not be appointed as notaries for the first time if, upon the expiry of the deadline for applications, they have reached the age of 60.
(2) In the case referred to in section 3 (2), only those are to be appointed as notaries who can prove that, upon expiry of the deadline for applications, they have

1. worked as a lawyer on a not insignificant scale for various clients for at least five years,
2. pursued the activity referred to in no. 1 for at least three years without interruption in the prospective notarial jurisdiction,
3. passed the professional examination for notaries under section 7a and
4. each year taken part in at least 15 hours of notary-specific continuing training events run by the chambers of notaries or professional organisations as from that calendar year following the year in which they passed the professional examination for notaries.

Before being appointed as notary, applicants must in addition furnish proof that they are sufficiently familiar with professional notarial practice; such proof shall as a rule involve applicants, after passing the professional examination for notaries, undergoing 160 hours of practical training with a notary to be determined by the chamber of notaries competent for the prospective notarial jurisdiction. The practical training may be reduced to up to 80 hours if the applicant can furnish proof of comparable experience as a deputy notary or administrator for a notary or on the basis of successfully participating in practical courses run by the chambers of notaries or professional organisations. Details of sentences 2 and 3 shall be regulated by the chamber of notaries in training regulations which shall require approval by the Land department of justice. Upon application, the periods referred to in subsection (4) and any periods of a temporary waiver of admission to the legal profession on account of pregnancy or caring for a child or a family member in need of long-term nursing care of up to 12 months shall be credited to the activity referred to in sentence 1 no. 1. No account shall be taken of any interruptions of the activity referred to in sentence 1 no. 1 and no. 2 on the ground of the circumstances of everyday life. The periods referred to in sentence 5 shall not
be regarded as an interruption of the activity referred to in sentence 1 no. 2 if they do not exceed 12 months.

(3) When selecting from amongst several suitable applicants, the sequence in which they are selected shall be based on their personal and professional aptitude, taking into account the state examination completed following the end of legal training and their performance when preparing for the profession of notary. In the case referred to in section 3 (1), appropriate account is to be taken of the length of time which the applicant served as trainee notary. In the case referred to in section 3 (2), professional aptitude shall be assessed on the basis of a points system; the result of the professional examination for notaries accounts for 60 per cent, the result of the state examination taken following the end of legal training accounts for 40 per cent of the point score, unless, in the individual case and after having heard the chamber of notaries, consideration is, by way of exception, to be given to special circumstances in the case of an applicant who is or was a notary and these take precedence over the applicant’s professional aptitude. Where examinees achieve the same point score, account is, as a rule, to be taken of the result of the professional examination for notaries.

(4) The Land governments shall be authorised to lay down provisions by way of a statutory instrument concerning those periods of military or civilian service, periods in which an applicant was prohibited from working under the provisions of the Act on the Protection of Working Mothers (Mutterschutzgesetz) and periods when an applicant was on a leave of absence on account of taking parental leave which are to be credited against time served as trainee notary pursuant to subsection (3) sentence 2, as well as, in the case of re-appointment, concerning those periods in which an applicant had temporarily resigned from office pursuant to section 48b which are to be credited against their previous official activities. The Land governments may delegate this authorisation by way of a statutory instrument to the Land departments of justice.

Section 6a
[Refusal]
Appointment must be refused where applicants neither furnish proof of having taken out professional indemnity insurance (section 19a) nor supply a provisional cover note.

Section 6b
[Advertisement and application]
(1) Applicants are to be identified by means of an advertisement; this shall not apply to re-appointment following temporary resignation from office pursuant to section 48c.
(2) Applications are to be submitted within the period stated in the advertisement or which has been generally made known by the Land department of justice.
(3) Where applicants are prevented, through no fault of their own, from meeting the deadline, they shall, upon request, be granted restoration of the status quo ante. Requests must be submitted within two weeks of removal of the obstacle. The facts supporting the request must be substantiated. The application must be filed subsequently within the deadline for submission of the request.
(4) When selecting from amongst several applicants in accordance with section 6 (3), consideration is only to be given to those circumstances which existed upon expiry of the deadline for applications. In the case referred to in section 7 (1), the Land department of justice may set a different deadline.

Section 7
[Service as trainee notary]
(1) As a rule, only those who have served three years as a trainee notary (Notarassessor) in that Land in which they have filed their application shall be appointed to exercise the office of notary as their main occupation (section 3 (1)).
(2) Selection from amongst several suitable applicants to serve as trainee notary shall be based on personal and professional aptitude, taking particular account of the state examination completed following the end of legal training. Applicants are to be identified by
means of an advertisement; section 6b (2) to (4) shall apply accordingly. They may also be identified by means of the Land department of justice permitting applicants to enter their names in a constantly maintained list of applicants for a specific period. The fact that such lists are maintained is to be generally made known.

(3) Trainee notaries shall be appointed by the Land department of justice after it has heard the chamber of notaries. It is for the president of the chamber of notaries to assign trainee notaries to a notary. The president shall oblige the trainee notary by means of a handshake to conscientiously fulfil his or her duties.

(4) Trainee notaries are in a public-law employment relationship with the state whilst serving as trainee notaries. Excepting section 19a, they shall have the same general official duties and other duties as a notary. As from the time of their assignment and for the duration of their service as trainee notaries they shall receive remuneration from the chamber of notaries which is to be comparable to that of a judge on probation. The chamber of notaries shall enact guidelines in this regard and determine whether in the individual case whether and in what amount the notary to whom a trainee notary has been assigned shall be obliged to reimburse the remuneration.

(5) Trainee notaries are to be employed by the notary in a manner which corresponds to the purpose of the service as trainee notary. The Land government or the agency determined by it by way of a statutory instrument shall regulate, by way of a statutory instrument, further details concerning the training of trainee notaries.

(6) The service as trainee notary ends

1. upon the trainee notary being appointed as notary,
2. upon the trainee notary being discharged from service.

(7) Trainee notaries are to be discharged from service upon their request therefor. They may be discharged if they

1. prove unsuitable for appointment as notary,
2. do not commence the service as trainee notary without sufficient reason within a period to be determined by the Land department of justice, which should not exceed two months,
3. do not apply for a notarial office offered to them by the Land department of justice without sufficient reason after serving three years as trainee notary and that post was previously advertised and could not be filled on account of a lack of suitable applicants.

Section 7a

[Professional examination for notaries]

(1) Whoever has been admitted to the legal profession for three years and fulfils the conditions for appointment as notary under section 5 shall be admitted to the professional examination for notaries.

(2) The professional examination for notaries serves to provide proof that and to what degree a lawyer is professionally suited to exercise the office of notary in the capacity as lawyer commissioned as notary. The examination shall comprise a written and an oral part.

(3) The professional examination for notaries serves to identify the best amongst the examinees. The uniformity of examination requirements and performance assessment is to be guaranteed. The examination may be held at various locations.

(4) The topics of the written and of the oral examination shall cover the entire spectrum of official functions of a notary. The Federal Ministry of Justice and Consumer Protection shall regulate the areas covered in the examination by way of a statutory instrument requiring the approval of the Bundesrat.

(5) Sections 1 and 2 of the Ordinance on a Mark and Point Scale for the First and Second State Examination in Law (Verordnung über eine Noten- und Punkteskala für die erste und zweite juristische Staatsprüfung) of 3 December 1981 (Federal Law Gazette I, p. 1243) shall
apply accordingly to the marks to be awarded by the individual examiners and the composition of the final mark.

(6) The written examination accounts for 75 per cent, the oral examination for 25 per cent of the overall result of the professional examination for notaries. Whoever achieves an overall mark of at least 4.00 points shall be deemed to have passed the professional examination for notaries.

(7) Whoever does not pass the examination or has been deemed not to have passed the examination may repeat it once only. An examinee who has passed the examination may repeat the examination once only with the aim of achieving a better score at the earliest three years following notification of the result of the professional examination for notaries.

Section 7b

[Written examination]

(1) The written examination comprises four five-hour invigilated examinations. It serves to determine whether the examinee has acquired the specialist knowledge needed to be able to work as a notary and whether he or she is able to provide, within a limited space of time, legally sound and practical solutions to tasks taken from notarial practice.

(2) Each invigilated examination is marked successively by two examiners. The names of the examinees may not be made known to the examiners before marking of the invigilated examinations has been completed. At least one lawyer commissioned as notary is, as a rule, to be involved in marking each individual task set. Where the marks awarded deviate by no more than three points, the average is to be taken. If the marks differ by a larger number of points and the examiners cannot reach agreement or approximate the marks so that they deviate only by up to three points, a third examiner shall decide; that examiner may decide to take the mark awarded by one of the examiners or to award a mark which lies between the two other marks.

(3) The marks awarded for the invigilated examinations are to be made known to examinees when they are invited to the oral examination. Where more than one invigilated examination is awarded less than 4.00 points or the overall average of all the invigilated examinations is less than 3.50 points, the examinee may not be invited to the oral examination and has not passed the professional examination for notaries.

Section 7c

[Oral examination]

(1) The oral examination comprises a presentation on a problem specific to the office of notary and a group interview which is, as a rule, to cover different subject areas. The group interview is, as a rule, to last around one hour per examinee. No more than five examinees are, as a rule, to be examined at once. As well as evidence of their knowledge, examinees are in particular also to provide evidence in the oral examination that they are able to fulfil a notary’s duty of examination and instruction in a manner appropriate to the subject matter and the situation.

(2) The oral examination is to be conducted by a board of examiners comprising three examiners. They must be in attendance throughout the entire examination. The board is to be chaired by an examiner appointed upon the proposal of the Land department of justice in whose jurisdiction lawyers commissioned as notaries are appointed. One of the examiners is, as a rule, to be a lawyer commissioned as notary.

(3) Representatives of the chambers of notaries, of the Federal Chamber of Notaries, of the Examination Office, of the Federal Ministry of Justice and Consumer Protection and of the Land departments of justice may be present during oral examinations. The Examination Office may admit persons who have been admitted to the professional examination for notaries to observe an examination. Only the members of the board of examiners may take part in the deliberations.

(4) Following the oral examination the examiners shall mark the presentation and the group interview in accordance with section 7a (5). If the marks awarded differ, the average is to be taken. The board of examiners shall then announce the marks to the examinee. A more
detailed explanation of the marks awarded may only be requested right away and is only to be given orally.

Section 7d
[Service of certificate, objection]
(1) Notification of the result of the professional examination for notaries is to be served on the examinee. A certificate shall be issued where the examinee passes the professional examination for notaries, indicating the overall mark plus a designation and a point score. Whoever repeats the professional examination for notaries shall be issued with a certificate only upon achieving a higher mark.
(2) The head of the Examination Office shall decide on an objection.
(3) (repealed)

Section 7e
[Failure to pass examination]
(1) If, after being admitted to the examination, an examinee withdraws without sufficient excuse, does not hand in an invigilated examination or does not do so on time, or does not appear for the oral examination or does not appear on time, he or she shall be deemed to have failed the examination.
(2) Whoever proves that they were prevented, through no fault of their own, from taking one or more of the invigilated examinations or from handing them in on time may retake the invigilated examination in question; the already completed parts of the examination shall remain unaffected. Whoever proves that they missed the entire or part of the oral examination through no fault of their own may retake the oral examination.

Section 7f
[Use of means of deception; disqualification]
(1) Where an examinee attempts to influence the result of the professional examination for notaries by using aids which are not permitted, by drawing on the prohibited assistance of third parties or using other means of deception, that part of the examination shall be awarded zero points. In the event of a serious or repeat attempt at deception, he or she shall be deemed to have failed the professional examination for notaries as a whole.
(2) Where a serious attempt at deceit becomes known after the overall mark has been announced, the examinee may be deemed to have failed the professional examination for notaries in question.
(3) An examinee who commits a significant breach of the examination regulations may be barred from continuing to take the invigilated examination or the oral examination. Where an examinee is barred from continuing to take an invigilated examination, that examination shall be awarded zero points. In the event of an examinee repeatedly being barred from taking an invigilated examination or being barred from the oral examination, he or she shall be deemed to have failed the professional examination for notaries.

Section 7g
[Examination Office]
(1) The Examination Office for the Professional Examination for Notaries at the Federal Chamber of Notaries (Examination Office) shall be responsible for administering the examination.
(2) The Examination Office shall decide on whether an examinee is to be admitted to the examination, shall nominate the examiners, including the additional examiner (section 7b (2) sentence 5) and the examination committees, set the examination dates, invite examinees, determine the examination result, issue the examination certificate, and take decisions on the consequences of a breach of the examination regulations and on objections pursuant to section 7d (2) sentence 1. The Federal Ministry of Justice and Consumer Protection shall regulate further details by way of a statutory instrument requiring the approval of the Bundesrat.
(3) The head of the Examination Office shall represent the Office in administrative proceedings and in court proceedings in connection with the professional examination for notaries. The head and his or her deputy must be qualified to hold judicial office. They shall be appointed for a five-year term of office in consultation with those Land departments of justice in whose jurisdiction lawyers commissioned as notaries are appointed, after the Federal Ministry of Justice and Consumer Protection has heard the Federal Chamber of Notaries. Re-appointment shall be possible.

(4) An Examination Committee shall be established at the Examination Office. It shall set the questions for the written examination, decide which aids are permitted in the examination and make proposals for questions to be set in the oral examination. The members of the Committee must hold one of the qualifications listed in subsection (6) sentence 1. They shall be appointed for a five-year term of office by the head of the Examination Office in consultation with the Administrative Board. Re-appointment shall be possible. The members of the Examination Committee shall receive appropriate remuneration for their work.

(5) An Administrative Board shall be established at the Examination Office. It shall be responsible for supervising the head of the Examination Office and the Examination Committee. The Administrative Board comprises one member nominated by the Federal Ministry of Justice and Consumer Protection, one member nominated by the Federal Chamber of Notaries and three members nominated by mutual agreement by those Land departments of justice in whose jurisdiction lawyers commissioned as notaries are appointed.

(6) The following may be appointed as examiners by the Examination Office for a five-year term of office:

1. judges and public officials qualified to hold judicial office, even if they have already reached retirement age, upon the proposal of the Federal Ministry of Justice and Consumer Protection and those Land departments of justice in whose jurisdiction lawyers commissioned as notaries are appointed,

2. notaries and retired notaries upon the proposal of the chambers of notaries and

3. other persons who have the same qualifications as those referred to in nos. 1 and 2, in consultation with the Federal Ministry of Justice and Consumer Protection and those Land departments of justice in whose jurisdiction lawyers commissioned as notaries are appointed.

Re-appointment shall be possible. The appointment may be revoked for important reasons. Examiners shall retire upon reaching the age of 70; their involvement in opposition proceedings shall remain unaffected thereby.

(7) Examiners shall be independent in taking decisions on examinations and shall not be bound by instructions. In all other respects, they shall be subject in their capacity as examiner to the supervision of the Examination Office. They shall receive appropriate remuneration for their work.

Section 7h
[Fees]

(1) Fees are to be paid to the Federal Chamber of Notaries for the examination and for unsuccessful opposition proceedings. An examinee will not be admitted to the examination until the Federal Chamber of Notaries has received the examination fees. If the applicant withdraws before commencing the examination, three quarters of the fee is to be reimbursed. If the applicant withdraws up to the end of the period for marking the last invigilated examination, half of the fee shall be reimbursed. No fees shall be reimbursed in the case referred to in section 7f.

(2) The Federal Chamber of Notaries shall determine, by way of by-laws which require approval by the Federal Ministry of Justice and Consumer Protection, the amount of the fees under subsection (1), details concerning the lewing of the fees and the remuneration paid to
the head and employees of the Examination Office, the members of the Examination Committee and the examiners.

Section 7
[Statutory instruments]
The Federal Ministry of Justice and Consumer Protection shall regulate, by way of a statutory instrument requiring the approval of the Bundesrat, further details concerning the organisation and the course of business of the Examination Office, the selection and appointment of the examiners, the examination procedure and the Administrative Board's decision-making procedure.

Section 8
[Prohibition of secondary employment, exceptions]
(1) Notaries may not simultaneously hold a salaried office. In an individual case, after having heard the chamber of notaries, the Land department of justice may at any time permit revocable exceptions; in such cases the notary may not personally exercise the office of notary.
(2) Notaries may not exercise another profession; section 3 (2) shall remain unaffected. Lawyers commissioned as notaries may simultaneously exercise the profession of patent attorney, tax adviser (Steuerberater), auditor or certified accountant.
(3) Notaries shall require the authorisation of the supervisory authority to

1. take on paid secondary employment, in particular a commercial activity,
2. join the board, supervisory board, administrative board or other constituent body of a for-profit enterprise, co-operative or an economic enterprise operated in another legal form.

Such authorisation is to be refused if the activity referred to in sentence 1 is not compatible with the public office of notary or if it might diminish the confidence placed in the notary’s independence or impartiality. The chamber of notaries is to be heard before taking a decision on granting the authorisation. The authorisation may be linked to conditions or time limited.
(4) No authorisation shall be required in order to take on the office of executor, insolvency administrator, arbitrator or guardian or a similar post by order of a public authority, as well as academic, artistic or lecturing activities.

Section 9
[Joint practice]
(1) Notaries appointed to exercise their office as their main occupation may form joint practices or share business premises only with notaries appointed at the same location of office. The Land governments or agencies determined by them by way of a statutory instrument shall be authorised to determine the following by way of a statutory instrument in order to meet the requirements of the proper administration of justice, in particular as regards local needs and customs:

1. that a joint practice or the sharing of business premises in accordance with sentence 1 is permissible only with the authorisation of the supervisory authority, which may be linked to conditions or time limited, and after the chamber of notaries has been heard;
2. the preconditions for establishing joint practices or sharing business premises, in particular in regard to the maximum number of involved members of the profession and the requirements as to the establishment, conduct, continuation and termination of the joint practice or sharing of business premises.
(2) Lawyers commissioned as notaries may form joint practices or share business premises only with each other, with other members of a bar association, with patent attorneys, tax advisers, tax agents (Steuerbevollmächtigte), auditors or certified accountants.
(3) A joint practice and the sharing of business premises is permissible only to the extent that the personal and autonomous exercise of the office, independence and impartiality of the notary is not affected.

Section 10
[Location of office]
(1) Notaries shall be assigned to a specific place as their location of office. In towns and cities with a population of more than 100,000, notaries may be assigned to a specific municipal district or local court district as their location of office. The location of office may be relocated with the consent of the notary after the chamber of notaries has been heard and consideration has been given to the interests of the proper administration of justice. The consent of the notary shall not be required when assigning another location of office on the ground of a judgment handed down by a disciplinary court.
(2) Notaries must maintain an office at their location of office. They are to choose their dwelling so that it does not affect the proper exercise of their official functions; the supervisory authority may instruct a notary to choose a dwelling at his or her location of office if this is necessary in the interests of the administration of justice. In the case of lawyers commissioned as notaries, their office and a law office as referred to in section 27 (1) or (2) of the Federal Code for Lawyers (Bundesrechtsanwaltsordnung) must be one and the same.
(3) Notaries shall as a rule keep their office open during normal business hours.
(4) Notaries may be required to maintain several offices; they shall not be authorised to do so without the permission of the supervisory authority. The same shall apply when it comes to holding office hours elsewhere. Permission may be linked to conditions and may be granted subject to revocation or time limited. The chamber of notaries is to be heard before issuing or revoking permission.

Section 10a
[Jurisdiction]
(1) A notary’s jurisdiction encompasses the district of that local court in which that notary has his or her location of office. Depending on the requirements of the proper administration of justice, the Land department of justice may determine the boundaries of notarial jurisdiction differently either in general or in an individual case when assigning the location of office and may amend such determinations, in particular in order to adapt them to changes made to judicial districts.
(2) Notaries shall as a rule perform their notarial acts (sections 20 to 22) only within their own jurisdiction, unless the specific justified interests of the consumers of legal services require the performance of such acts beyond the bounds of that jurisdiction.
(3) Notaries must notify the supervisory authority or the chamber of notaries of which they are members if the supervisory authority so determines, without delay and stating reasons, of any notarial acts performed beyond the bounds of their notarial jurisdiction.

Section 11
[Official district]
(1) A notary’s official district shall be the higher regional court district in which that notary has his or her location of office.
(2) A notary may perform notarial acts outside of his or her official district only where there is danger in delay or the supervisory authority has given permission therefor.
(3) A breach shall not affect the validity of the notarial act, even if the notary performs the notarial act outside of that Land in which he or she has been appointed as notary.

Section 11a
[Notaries appointed abroad]
Notaries shall be authorised to assist a notary who has been appointed abroad with his or her official functions upon that notary’s request and may go abroad for that purpose insofar
as this is not precluded under the legal provisions applicable in the state concerned. The German notary must comply with the duties incumbent upon him or her under German law. A notary who has been appointed abroad may provide collegial assistance in the area of application of this Code only upon the request of a German notary; sentence 1 shall apply accordingly. The foreign notary must comply with the duties incumbent upon a German notary.

Section 12
[Certificate of appointment]
Notaries shall be appointed by the Land department of justice, after it has heard the chamber of notaries, upon delivery of a certificate of appointment. The certificate shall state the notary’s official district and location of office and the duration of the appointment (section 3 (1) and (2)).

Section 13
[Official oath]
(1) After delivery of the certificate of appointment the notary shall swear the following oath:
‘I do swear before God the Omnipotent and Omniscient that I will uphold the constitutional order and conscientiously and impartially perform the duties of a notary. So help me God.’ Where the oath is sworn by a female notary, the male form of the noun shall be replaced by the female form of the noun in German.
(2) Where members of a religious community are permitted by law to use a form of affirmation other than the words ‘I do swear’, a notary who is a member of that religious community may use that form of affirmation. The oath may also be taken without the religious affirmation.
(3) Notaries shall swear the oath before the president of the regional court in whose district they have their location of office. They shall not perform any official acts before taking the oath.

Division 2
Exercise of office

Section 14
[Powers and duties]
(1) Notaries shall execute their office true to their oath. They are not representatives of any party, but independent and impartial providers of a service to the parties involved.
(2) Notaries shall refuse to carry out their official functions if these are incompatible with their official duties, in particular if they are asked to participate in activities which recognisably pursue unlawful or dishonest purposes.
(3) Notaries shall show themselves worthy of the respect and confidence shown in the office of notary by means of their conduct both when exercising and when not exercising their office. They shall avoid any conduct which creates the appearance of being in breach of the duties incumbent upon them by law, in particular their appearance of independence or impartiality.
(4) Notwithstanding the agency activities assigned to them by law, notaries shall be prohibited from arranging loans and property transactions, from being involved in any manner in arranging notarial business or taking on a surety or another guarantee in connection with an official act. They shall ensure that those persons in their employ do not engage in such business.
(5) Notaries may not acquire any stake in a company which is incompatible with their office. In particular, they are prohibited from holding a stake in a company which engages in an activity within the meaning of section 34c (1) of the Trade Regulation Code (Gewerbeordnung), as well as in a tax consultancy or auditing company if they are to directly or indirectly exercise a controlling influence alone or together with other persons with whom
they have formed a joint practice pursuant to section 9 or with whom they share business premises.

(6) Notaries must undertake continuing training to the extent necessary in respect of their official functions.

Section 15  
[Refusal to exercise office]

(1) Notaries may not refuse to perform notarial acts without sufficient reason. They shall not be obliged to record documents written in a language other than in German.

(2) A complaint may be brought against a notary’s refusal to perform notarial acts or other duties. It is for the civil chamber of the regional court in whose district the notary has his or her location of office to hear the complaint. The provisions of the Act on Proceedings in Family Matters and in Matters of Non-Contentious Jurisdiction (Gesetz über das Verfahren in Familiensachen und in den Angelegenheiten der freiwilligen Gerichtsbarkeit) shall apply to the proceedings.

(3) (repealed)

Section 16  
[Ban on involvement, bias]

(1) Section 3 of the Notarial Recording Act (Beurkundungsgesetz) shall apply accordingly in respect of those official functions of a notary which do not constitute notarial recording under that Act.

(2) Notaries may recuse themselves from performing their duties on the ground of bias.

Section 17  
[Fees]

(1) Notaries shall be obliged to charge the fees prescribed by law for their activities. Unless statutory provisions provide for the waiving or reduction of fees or for the non-collection of fees due to improper handling of a matter, it shall be permissible to waive and to reduce the fees only where this is necessary out of a moral duty or consideration for the sake of decency and the chamber of notaries has consented thereto in general or in an individual case. Within the areas of responsibility of the Notaries’ Fund and of the Notaries’ Fund for the Five Eastern Länder, these shall take the place of the chambers of notaries. The promising and granting of advantages in connection with an official function, as well as any sharing of the fees with third parties shall not be permissible.

(2) In the case of parties qualifying for legal aid under the provisions of the Code of Civil Procedure (Zivilprozessordnung), notaries shall, in analogous application of the provisions of the Code of Civil Procedure, provisionally perform their notarial acts free of charge or against payment of the fees in monthly instalments.

Section 18  
[Obligation of confidentiality]

(1) A notary shall be bound to maintain confidentiality. This obligation shall apply to everything which becomes known to a notary in the exercise of his or her office. It shall not apply to facts which are obvious or which, by dint of their importance, do not necessitate confidentiality.

(2) The obligation of confidentiality shall not apply where the parties involved grant an exemption thereto; upon the decease of a party or where no statement can be obtained from that party or obtaining the statement entails disproportionate difficulties, the supervisory authority may grant the exemption instead.

(3) Where, in an individual case, there are doubts as to whether the obligation of confidentiality shall apply, the notary may seek a decision from the supervisory authority. If the supervisory authority negates this obligation, no claims can be derived against a notary who has spoken about a matter.

(4) The obligation of confidentiality shall continue to apply even after the expiry of office.
Section 19
[Breach of official duty, liability]

(1) Where a notary, through intent or negligence, breaches the official duty incumbent upon him or her vis-à-vis another person, that notary shall compensate that person for the damage arising therefrom. Where the notary acted out of negligence, that notary may be held liable only if the injured party is unable to secure compensation in another manner; that shall, however, not apply to official functions of the types referred to in sections 23 and 24 in the relationship between the notary and the client. In all other respects, the provisions of the Civil Code (Bürgerliches Gesetzbuch) concerning the liability to pay damages in the event of a breach of official duty by a public official shall apply accordingly. The state shall not be liable in lieu of the notary.

(2) Where a trainee notary commits a breach of duty in the course of independently performing one of the types of business referred to in sections 23 and 24, that trainee notary shall, applying subsection (1) accordingly, be liable. If the notary left the trainee notary to perform the business independently, the notary shall be liable alongside the trainee as joint debtor; in the relationship between the notary and the trainee notary the trainee alone shall be liable. The employment relationship between the trainee and the state (section 7 (3)) does not establish any liability on the part of the state. Where the trainee notary was acting as the notary’s deputy, section 46 shall apply as regards liability.

(3) The regional courts alone are competent as regards claims for damages under subsections (1) and (2), regardless of the value in dispute.

Section 19a
[Professional indemnity insurance]

(1) Notaries shall be obliged to maintain professional indemnity insurance to cover the liability risks for financial losses resulting from their professional activity as notary and for the activities of persons for whom they are liable. The insurance must be taken out with an insurance company which is authorised to do business in Germany at the general conditions of insurance submitted in accordance with the provisions of the Insurance Supervision Act (Versicherungsaufsichtsgesetz). The insurance must cover all the risks of liability to be insured pursuant to sentence 1 and each individual breach of duty which may give rise to liability claims against the notary.

(2) The insurance cover may exclude liability for

1. claims for compensation on the ground of an intentional breach of duty,

2. claims for compensation resulting from activities pursued in connection with the provision of advice about non-European law, unless the breach of official duty consists in the possibility of applicability of that law not having been recognised,

3. claims for compensation based on misappropriation by members of the notary’s staff, unless the notary is liable on account of a negligent breach of his or her official duty to supervise staff.

Where, following a breach of official duties, the only contentious issue is whether the ground for the exclusion under no. 1 exists, and where the professional indemnity insurer therefore refuses to regulate the matter, the insurer must nevertheless pay the minimum insurance cover up to the amount applicable to the insurer covering the damages for intentional acts. If the professional indemnity insurer satisfies the party entitled to compensation, the entitled party’s claim against the notary, the chamber of notaries, the insurer pursuant to section 67 (3) no. 3 or another party entitled to compensation shall pass to it. The professional indemnity insurer may also demand compensation for its expenses from persons for whose obligations it is liable pursuant to sentence 2 in the same way as from a client.

(3) The minimum insurance cover shall be 500,000 euros for each insured event. The benefits paid by the insurer for all losses incurred in one insurance year may be limited to double the amount of the minimum insurance cover. The insurance contract must oblige the
insured party to notify the Land department of justice and the chamber of notaries without delay of the start and the end or termination of the insurance contract, as well as of any change to the insurance contract which affects the prescribed insurance cover. It may be agreed in the insurance contract that all breaches of duty in the performance of a single item of official business based either on the conduct of the notary or of an assistant whom that notary enlists may be regarded as one insured event.

(4) It shall be permissible to agree an excess of no more than 1 per cent of the minimum insurance cover.

(5) The competent agency within the meaning of section 117 (2) of the Insurance Contract Act (Versicherungsvertragsgesetz) shall be the Land department of justice.

(6) Upon the application of third parties and in order that they may assert claims for compensation, the Land department of justice or the chamber of notaries of which the notary is a member shall supply the name and address of the notary’s professional indemnity insurance as well as the insurance number, unless the notary has an overriding interest worth protecting in the information not being supplied; this shall also apply where the office of notary has expired.

(7) (repealed)

(5) The extent to which notaries are to be responsible for creating and approving official seals in the context of proceedings to secure an estate is to be determined by the provisions of Land law.

Section 21
[Issue of certificates]

(1) Notaries shall be responsible for

1. certifying a right of representation and

2. certifying the existence or the registered office of a legal person or commercial enterprise, a change in business name and a conversion of other circumstances of legal consequence

based on an entry in the Commercial Register or a similar register evidencing such facts. The certificate shall have the same probative value as a certificate issued by the court of registration.

(2) Notaries may issue the certificate only after first having satisfied themselves of the fact that the entry has been made, based on inspection of the register or of a certified copy
thereof. The date of inspection of the register or the date of issue of the copy must be stated on the certificate.

(3) Notaries shall, further, be responsible for certifying a power of attorney established by legal act. They may issue the certificate only after first having satisfied themselves that the power of attorney has been established by inspecting a public or publicly certified certificate of power of attorney. The form of and the date on which the certificate of the power of attorney was presented to the notary shall be stated on the certificate.

Section 22
[Administration of oath, declaration in lieu of oath]

(1) Notaries shall be responsible for the administration of oaths as well as for examinations on oath only if the oath or the examination on oath is necessary under the law of a foreign state or under the provisions of a foreign authority or it is otherwise necessary to assert rights abroad.

(2) Notaries are entitled to record declarations in lieu of an oath in all cases in which a statement of fact or testimony is to be substantiated for an authority or other agency.

Section 23
[Safekeeping and delivery]

Notaries shall also be responsible for taking receipt of money, securities and valuables which parties hand over to them for safekeeping or for delivery to third parties; sections 57 to 62 of the Notarial Recording Act shall remain unaffected.

Section 24
[Advisory services and representation]

(1) The office of notary also encompasses the provision of other advisory services to the parties involved in the preventive administration of justice, in particular the drawing up of draft documents and advising of the parties involved. Unless restrictions are imposed under other provisions, notaries shall also be authorised to represent parties before the courts and administrative authorities to that extent.

(2) If lawyers commissioned as notaries perform acts of the type referred to in subsection (1), it shall be assumed that they have acted in their capacity as notary if the act is intended to prepare or perform official functions of the types referred to in sections 20 to 23. In all other respects, it is to be assumed, in case of doubt, that they have acted in their capacity as lawyer.

(3) To the extent that notaries are authorised by law to file applications with the land registry or the authorities holding registers (in particular under section 15 (2) of the Land Registry Code, section 25 of the Shipping Register Code (Schiffsregisterordnung) and section 378 of the Act on Proceedings in Family Matters and in Matters of Non-Contentious Jurisdiction) in the name of the parties involved, they shall also be authorised to withdraw any applications which have been filed. The declaration of withdrawal shall be effective once the notary adds his or her signature and official seal; certification of the signature shall not be necessary.

Division 4
Other duties

Section 25
[Members of staff]

(1) Notaries may employ members of staff who are qualified to hold judicial office, who have passed the professional examination for civil servants required to hold the office of district notary or who hold the degree of Diplom-Jurist only if that notary’s personal exercise of the office is not jeopardised thereby.

(2) In order to be able to safeguard the interests of the proper administration of justice, the Land governments or the agencies determined by them by way of a statutory instrument shall be authorised to determine by way of a statutory instrument that notaries may employ members of staff who are qualified to hold judicial office, who have passed the professional
examination for civil servants required to hold the office of district notary or who hold the degree of Diplom-Jurist only if the supervisory authority has authorised such employment after having heard the chamber of notaries. The authorisation may be linked to conditions and may be issued subject to revocation or time limited.

Section 26

Formal declaration by persons employed

Upon their being hired, persons employed by a notary must make a formal declaration of commitment to the notary pursuant to section 1 of the Act on the Formal Assignment of Responsibilities to Persons Other than Civil Servants (Verpflichtungsgesetz). Particular reference must be made to the provisions of section 14 (4) and section 18. Where a notary has associated himself or herself with other persons for the joint exercise of their profession and their employees have a single employment relationship with these persons, it shall be sufficient for one of the notaries to require the formal declaration to be made before him or her. Notaries must take appropriate measures to ensure that the persons they employ observe the obligation of confidentiality. Persons who are involved in a notary’s professional activities as part of preparations for their own professional activity or in another auxiliary capacity shall be equal to persons employed by notaries. Sentences 1 to 3 shall not apply to trainee notaries and trainee lawyers (Referendare).

Section 26a

Availment of services

(1) Notaries may give service providers access to facts to which the obligation of confidentiality under section 18 applies without the consent of those involved to the extent that this is necessary to be able to avail themselves of such services. Service providers are other persons or agencies commissioned with rendering services by notaries in the exercise of their profession.

(2) Notaries shall be obliged to carefully select their service providers. Cooperation must be terminated immediately where it cannot be guaranteed that a service provider will be able to fulfill the requirements set out in subsection (3).

(3) Contracts with service providers must be made in writing. Such contracts must

1. oblige the service provider to maintain confidentiality and advise of the consequences under criminal law of any violation of that obligation,

2. oblige the service provider to obtain knowledge of others’ secrets only insofar as this is necessary in the fulfilment of the contract and

3. stipulate whether the service provider is authorised to involve other persons in the fulfilment of the contract; where this is the case, the service provider must be required to oblige, in writing, those persons to maintain confidentiality.

(4) When availing themselves of services which directly refer to a single item of official business, notaries may only grant service providers access to others’ secrets if the person concerned has consented thereto.

(5) Subsections (2) and (3) shall also apply where notaries avail themselves of services to which those concerned have consented, unless those concerned have expressly waived the need to observe the requirements set out in subsections (2) and (3).

(6) Subsection (3) shall not apply in those cases in which the service provider was formally obliged pursuant to section 1 of the Act on the Formal Assignment of Responsibilities to Persons Other than Civil Servants. Subsection (3) sentence 2 shall not apply if the service provider is bound by law to maintain confidentiality regarding the service to be rendered.

(7) Other provisions which restrict a notary’s ability to avail himself or herself of services and provisions concerning the protection of personal data shall remain unaffected.

Section 27

[Notification of joint practice]
(1) Notaries shall notify the supervisory authority and their chamber of notaries without delay of the fact that they have established a joint practice or are sharing business premises with others. This duty of notification shall also apply to professional associations within the meaning of section 3 (1) sentence 1 no. 7 of the Notarial Recording Act. The name, profession, other professional activities and place of activity of those involved must be notified. Section 9 shall remain unaffected.

(2) Upon request, notaries shall submit to the supervisory authority and to their chamber of notaries the agreement on which the establishment of a joint practice or the sharing of business premises is based.

Section 28
[Maintenance of independence and impartiality]
Notaries shall take suitable precautions to guarantee that they maintain independence and impartiality in the exercise of their office, in particular as regards compliance with prohibitions of participation and other duties under the provisions of this Code, of the Notarial Recording Act and of the Court and Notary Fees Act (Gerichts- und Notarkostengesetz).

Section 29
[Ban on advertising]
(1) Notaries must refrain from engaging in any commercial activities, in particular such advertising as conflicts with their public office.
(2) Advertising which notaries are permitted to engage in pursuant to section 8 in the performance of their activities may not cover their activity as a notary.
(3) Lawyers commissioned as notaries who have established a joint practice pursuant to section 9 (2) with persons who are not active at that lawyer’s seat or who maintain further law offices or branch offices may state their official designation as notary on business papers, in directories, in advertisements and on signs not affixed to an office only if reference is simultaneously made to the location of their office. Such reference must immediately follow the notary’s official title, must correspond in appearance to such title and must include the word ‘Amtssitz’ (location of office). Sentence 1 shall not apply if the business papers, directories or advertisements make no reference to a joint practice pursuant to section 9 (2) or to further law offices or branch offices.
(4) Office signs and name plates may only be affixed to an office.

Section 30
[Duty to provide training]
(1) Notaries shall be involved to the best of their abilities in the training of trainee notaries and trainee lawyers.
(2) Notaries shall provide those trainees in their employ with meticulous professional training.

Section 31

Notaries shall conduct themselves in accordance with their office in their dealings with colleagues, courts, authorities, lawyers and others providing advisory services to their clients.

Section 32
[Copies of law gazettes]
Notaries shall hold copies of the Federal Law Gazette I, the law gazette of their respective Land, the official bulletin of their Land department of justice and the gazette of the Federal Chamber of Notaries. Where several notaries have established a joint practice, it shall be sufficient for them to jointly hold one copy of each.

Section 33
Electronic signature
(1) Notaries must be in possession of a qualified certificate issued by a qualified trust service provider which can be verified in perpetuity and of the technical means by which to create and validate qualified electronic signatures. When applying for a qualified certificate for electronic signatures for the first time, identification must be provided in the form of the notary’s publicly certified signature placed at the bottom of the application. The qualified certificate must also bear an attribute which identifies the holder as a notary and which also indicates the notary’s office, as well as the name of the Land and of the chamber of notaries in whose district the notary has his or her office.

(2) Notaries may only obtain their qualified certificate from a qualified trust service provider which can guarantee that the certificate will be immediately blocked as soon as an entry notifying the expiry of the notary’s office or his or her temporary removal from office is made in the Directory of Notaries.

(3) Notaries may only themselves manage the electronic signature creation data required to create qualified electronic signatures. They may not entrust the qualified electronic signature creation device designated for this purpose to other persons and may not reveal any data used to identify themselves vis-à-vis their qualified electronic signature creation device.

Section 34
Reporting requirements
Notaries must immediately notify the supervisory authority and the chamber of notaries in whose district they have their office in the event that they ascertain or there is reasonable cause to believe that

1. their official seal has been permanently or temporarily lost or was misused, or a forgery of their official seal is being used,
2. the qualified electronic signature creation device has been lost, was misused or manipulated, or data used to identify them vis-à-vis the qualified signature creation device have become known to another person,
3. data or other precautions taken to protect the Electronic Document Archive, the Electronic Database of Notarial Files, the Central Register of Lasting Powers of Attorney or the Central Register of Wills against unauthorised access have been misused, manipulated or subject to unauthorised access.

In the case referred to in sentence 1 no. 2, notaries must in addition immediately occasion the blocking of the qualified certificate by the trust service provider and must present proof of such blocking when making the notification referred to in sentence 1. In the case referred to in sentence 1 no. 3, the chamber of notaries must immediately notify the Federal Chamber of Notaries where there is reason to believe that the security of the Electronic Document Archive, of the Electronic Database of Notarial Files, of the Central Register of Lasting Powers of Attorney or of the Central Register of Wills has been compromised, including in regard to data transmitted or stored by other agencies.

(1) The Federal Ministry of Justice and Consumer Protection shall, by way of a statutory instrument requiring the approval of the Bundesrat, regulate further details concerning the files and directories to be kept by notaries, as well as concerning their content and the manner in which they are to be kept. In particular, such statutory instrument shall regulate further details concerning
1. the documents which notaries must add to the files and the information which is to be included in the directories, including the data to be collected and the time limits to be observed in that regard,

2. retention periods,

3. the keeping of electronic files and directories pursuant to section 35 (2)\(^1\) and concerning the measures to be taken to guarantee their confidentiality, integrity, transparency and availability even beyond the end of a notary’s period in office, including the permissible file formats, interfaces and data linkages between the files and directories,

4. the conditions under which a document which is available in paper form need not be transferred into electronic form although this is required by or on the basis of a law. When calculating the retention periods referred to in sentence 2 no. 2, particular account is to be taken of the purpose for which the files and directories are being made available with a view to the requirements of the proper administration of justice and of the fact that the clarification of facts must still be possible in the event of public liability claims arising.

(2) The statutory instrument may provide that further information may or shall be included in the directory of documents in addition to those entries which are necessary in order to be able to locate documents. It may also regulate further details concerning the use of the data stored in the directory of documents

1. in electronic legal dealings with the courts, authorities and third parties,

2. in regard to the keeping of other files and directories by a notary and

3. for supervisory purposes.

The appointment shall as a rule not exceed more than one year.

(2) In the event of a notary being suspended from office, a deputy may also be appointed without an application needing to be made. This shall also apply where a notary fails to apply for the appointment of a deputy although he or she is temporarily unable to properly exercise the office for health reasons.

---

\(^1\) Reference is here made to a new section 35 which enters into force on 1 January 2020 [translator’s note].
(3) Only those persons may be appointed as deputy who have the capacity to hold notarial office. Only a notary, trainee notary or retired notary shall be appointed as permanent deputy; after having heard the chamber of notaries, a lawyer may also be appointed as permanent deputy to a lawyer commissioned as notary. Except in the cases referred to in subsection (2), only those persons who have been proposed by the notary and are willing to take on the office shall be proposed. A custodian appointed pursuant to section 1896 of the Civil Code or a curator appointed pursuant to section 1911 of the Civil Code may also submit the application on the notary’s behalf and propose the deputy.  
(4) The provisions applicable to the notary shall apply accordingly to the deputy, with the exception of section 19a, unless otherwise provided in the following.

**Section 40**

(2) Deputies shall also refrain from exercising the office to the extent that the notary they are representing would be prohibited from exercising the office.

**Section 42**  
[Competence as regards pecuniary disputes]  
The regional courts shall have exclusive competence as regards pecuniary disputes between the notary and the deputy notary concerning remuneration or liability for breaches of official duties, regardless of the value in dispute.

**Section 43**

A notary shall pay an ex-officio appointed deputy (section 39 (2)) appropriate remuneration.  

**Section 44**

The local court must be notified of the fact that the files have been deposited in safe custody with another notary.
(2) It is for the notary with whom or the local court with which the files have been deposited in safe custody to issue execution copies and copies and to permit inspection of the files in place of the notary who is absent or unable to carry out official duties.

(3) If the notary has not deposited his or her files in safe custody pursuant to subsection (1) for the duration of his or her absence or inability to carry out official duties and a request is made for the issue of an execution copy or copy of the files or for inspection of the files, then it is for the local court in whose district the notary has his or her location of office to take the files into safe custody and to carry out the official act being applied for.

(4) It is for the notary with whom the files have been deposited in safe custody to issue the execution copies and certified copies, adding his or her signature and using his or her official seal or stamp. The provisions on the issue of execution copies or copies of court documents shall apply to the issue of execution copies or copies by the local court. Reference is to be made to the notary’s absence or inability to perform official functions in the entry regarding the making of the execution copy.

(5) If the files have been deposited in safe custody with a notary, the costs for issuing execution copies or copies shall accrue to that notary and if they have been deposited in safe custody with the local court they shall accrue to the Public Treasury.

A lawyer or notary is, as a rule, to be appointed as representative. The Land department of justice shall undertake those tasks assigned to the notary’s superior official under these provisions.

Section 51

[Continued use of official designation]

(1) Upon the expiry of office, authorisation to use the designation of ‘Notar’ or ‘Notarin’ shall expire. It shall likewise not be permissible to use the designation together with an addition making reference to the expiry of office.
(2) If the office of a notary appointed to exercise the office as a main occupation has expired on account of that notary being discharged (section 48), reaching retirement age (section 48a) or through removal from office for one of the reasons referred to in section 50 (1) no. 7, then the Land department of justice may issue the former notary with permission to continue to use the official designation with the addition of ‘außer Dienst (a.D.)’ (retired (rtd)). The same shall apply to a lawyer commissioned as notary if the office has expired on account of being discharged (section 48) or reaching retirement age (section 48a) or if that lawyer commissioned as notary has, upon waiving the rights resulting from admission to the legal profession, been given permission to continue to use the designation of ‘Rechtsanwalt’ or ‘Rechtsanwältin’ (lawyer).

(3) The Land department of justice may withdraw or revoke permission to use the designation of ‘Notar außer Dienst’ or ‘Notarin außer Dienst’ (retired notary) if circumstances subsequently become known or arise which would result in the expiry of the notary’s office for the reasons referred to in section 47 no. 5 and no. 7 or in section 50 (1) nos. 1 to 6, 8 and 9. Where the former notary was admitted to the legal profession, the authorisation referred to in subsection (2) sentence 1 shall lapse if the notary is no longer permitted to use the designation of ‘Rechtsanwalt’ or ‘Rechtsanwältin’ after his or her admission has lapsed.

Section 53
[Taking over rooms and employees]

(1) Where the office of a notary appointed to exercise the office as his or her main occupation has lapsed or his or her location of office has been moved, another notary who is already established at the original location of office shall require the permission of the Land department of justice to be able to move his or her office into the rooms occupied by the notary leaving office or to take on an employee in his or her own offices who had a particular relationship of trust with the notary. Permission may only be refused if this is necessary in the interest of the administration of justice.

(2) The validity of legal acts concluded on the occasion of the taking over or hiring of employees shall not be affected by a breach of the provision of subsection (1).

Section 54
[Suspension from office]

(1) A notary may be suspended from office by the supervisory authority

1. if the supervisory authority’s adult guardianship court has communicated a decision pursuant to section 308 of the Act on Proceedings in Family Matters and in Matters of Non-Contentious Jurisdiction;

2. if it feels that the conditions of section 50 are met;

3. if that notary has stayed outside of his or her location of office for more than two months without the consent of the supervisory authority.

An objection to and rescissory action against the suspension from office shall not have suspensive effect.

(2) A lawyer commissioned as notary may also be suspended from office without the disciplinary court instituting disciplinary proceedings if lawyers’ disciplinary proceedings have been instituted under the Federal Code for Lawyers. The provisions on suspension from office following institution of disciplinary proceedings shall apply accordingly. Subsection (1) sentence 2 shall apply accordingly.

(3) Where a lawyer commissioned as notary is suspended from the office of notary following the institution of disciplinary proceedings, the disciplinary court may ban him or her from practising or representing clients (section 150 of the Federal Code for Lawyers) if it is to be expected that the disciplinary proceedings will lead to a decision to dismiss him or her (section 97 (1) sentence 1 no. 3).

(4) The effects of suspension from office arise by operation of law.
1. where a notary is ordered into remand detention in criminal proceedings: for the duration of the remand detention;

2. where a lawyer commissioned as notary has been banned from practising and representing clients pursuant to section 150 of the Federal Code for Lawyers or banned from representing clients in civil-law matters pursuant to section 114 (1) no. 4 of the Federal Code for Lawyers: for the duration of the ban;

3. where an order is issued against a lawyer commissioned as notary to withdraw or revoke admission to the legal profession pursuant to section 14 of the Federal Code for Lawyers with immediate enforcement: from the time of service of the order throughout its effective period.

(5) The provisions on the suspension from the office of notary following the institution of disciplinary proceedings shall remain unaffected.

Section 55

[Safe custody of files and official acts following suspension from office]

(1) If, in the event of a notary being suspended from office, no deputy has been appointed for that notary, then that notary’s files and books, as well as his or her official seal, stamp and official sign shall be deposited with the local court for safe custody for the duration of the suspension from office. Section 45 (2), (4) and (5) shall apply accordingly.

(2) The notary shall refrain from undertaking any official acts throughout the duration of the suspension from office. A breach shall, however, not affect the validity of the official act. The notary may no longer effect official functions under section 23.

Section 56

[Administrator for notary]

(1) Where the office of a notary who has been appointed to exercise that office as a main occupation has expired or that notary’s location of office has been moved or, in the case referred to in section 8 (1) sentence 2, a notary appointed to exercise the office as a main occupation does not personally exercise the office, a trainee notary or another person qualified to hold the office of notary shall as a rule be entrusted with temporarily exercising the office of notary (administrator for a notary; Notariatsverwalter).

(2) Where a lawyer commissioned as notary leaves office on account of the expiry of the office, an administrator for a notary may be appointed in that lawyer’s place to wind up the notarial business for a period of up to one year if this is felt to be necessary. In justified exceptional cases this period may be extended beyond one year. The administrator for a notary is to be authorised to exercise new official functions within the first three months. Where a liquidator is appointed to wind up a law office, the liquidator may also be entrusted with winding up the notarial business in the capacity as administrator for a notary.

(3) Where a notary has temporarily resigned from office under section 48c, an administrator shall be appointed for the duration of the resignation from office, at most for one year.

(4) Where a notary has been provisionally removed from office, an administrator for a notary may be appointed if the appointment of a deputy (section 39 (2) sentence 1) does not appear expedient.

(5) Trainee notaries shall be obliged to take on the office of administrator for a notary.

Section 57

[Administrator for notary’s duties, certificate of appointment]

(1) Unless otherwise provided, administrators for a notary shall be subject to the same provisions which are applicable to notaries.

(2) Administrators for a notary shall be appointed by the Land department of justice, after having heard the chamber of notaries, by delivery of a certificate of appointment. Where an administrator has not already been sworn in as a notary, the oath (section 13) shall be sworn before the president of the regional court before taking over the office. Section 40 (1) sentence 3 shall apply accordingly.
Section 58
[Continuing official business, fees]
(1) An administrator for a notary shall take over the files and books of that notary whom he or she has been appointed to replace, as well as the documents and valuables officially deposited with that notary; if the files and books have already been deposited in safe custody with the local court when an administrator for a notary is appointed (section 51 (1) sentence 1), these shall generally be returned.
(2) Administrators for a notary shall continue the official business which the notary had already begun. They shall be entitled to take receipt of those fees which become due after they have taken over the notary’s official business. However, in the relationship with the party liable to pay the fees, the administrator must allow those advances paid to the notary before he or she took over the office to be set off.
(3) Insofar as the notary who has left office or his or her legal successor is entitled to the fees, it is for the administrator for a notary to issue an enforceable copy of the cost calculation (section 89 of the Court and Notary Fees Act); if the administrator refuses to issue the copy, the notary or his or her legal successor may apply for a decision from the regional court under section 127 of the Court and Notary Fees Act. If the notary has been assigned to another location of office, that notary as well as the administrator shall remain authorised to issue the enforceable copy. The administrator for a notary shall grant the notary inspection of the books and files; the notary shall bear any costs arising.

Section 59
[Administrator for notary’s remuneration]
(1) Administrators for a notary shall conduct the office for the account of the chamber of notaries against payment of appropriate remuneration to be determined by it. Administrators shall submit monthly invoices to the chamber of notaries, unless another agreement has been reached. If they do not pay the chamber of notaries the amounts due to it, these may be collected in the same way as outstanding membership dues.
(2) The chamber of notaries may assert a right to a set-off or right of retention in respect of an administrator’s remuneration only to the extent that this is attachable or it has a right to compensation on account of an intentional unlawful act.
(3) The chamber of notaries may agree a rule which differs from subsection (1) sentences 1 and 2 in general or in the individual case. Subsection (2) shall not apply in such a case.

Section 60
[Surpluses from administration of notarial affairs]
(1) The surpluses generated from the administration of notarial affairs for the account of the chamber of notaries must primarily be used to pay for the welfare of members of the profession and their surviving dependants.
(2) Where welfare institutions have been established pursuant to section 67 (4) no. 2, any remaining surpluses are to be paid to these institutions. Where no such welfare institutions exist, any remaining surpluses shall accrue to the chamber of notaries.

Section 61
[Breach of official duty by administrator for notary]
(1) In addition to the administrator for a notary, the chamber of notaries shall be liable as joint debtor vs-à-vs the injured party for a breach of official duty on the part of the administrator for a notary; in the relationship between the chamber of notaries and the administrator for a notary the latter alone shall be liable. The same shall apply insofar as an administrator for a notary is liable for breaches of official duty on the part of a deputy or of a trainee notary under section 46 or section 19 (2). Section 19 (1) sentence 2 and sentence 3 shall apply accordingly. The chamber of notaries’ liability shall be limited to the amount of the minimum insurance cover of those insurances which must be taken out in accordance with subsection (2).
(2) The chamber of notaries shall take out insurance to cover itself and an administrator for a notary against losses resulting from the liability under subsection (1), and such insurance cover which must meet the requirements set in section 19a and section 67 (3) no. 3. An administrator for a notary shall also be entitled to claim against the liability insurance in his or her own name.

(3) The state shall not be liable for breaches of official duty on the part of an administrator for a notary.

Section 62

[Pecuniary disputes between chamber of notaries and administrator for notary]
The regional courts alone shall be competent as regards pecuniary disputes between the chamber of notaries and an administrator for a notary concerning remuneration, invoicing (section 59) or liability for breaches of official duty, regardless of the value in dispute.

Section 63

[Inspection of files by chamber of notaries]
(1) Administrators for a notary shall be obliged to present files and books, as well as the documents deposited with them in safe custody for inspection by a person commissioned by the chamber of notaries.

(2) The supervisory authority’s powers of audit shall remain unaffected.

Section 64

[Duration and end of authority]
(1) The office of an administrator for a notary appointed pursuant to section 56 (1) shall end when a new notary is appointed or a notary who has been suspended from office or a notary who was unable, for personal reasons, to carry out any duties pursuant to section 8 (1) sentence 2 takes over the office again. The official authority of an administrator for a notary shall continue until he or she has been informed by the Land department of justice that the office has ended. The Land department of justice may revoke the appointment prematurely for important reasons.

(2) The office of an administrator for a notary appointed pursuant to section 56 (2) shall end upon the expiry of the period for which that administrator was appointed. Subsection (1) sentence 3 shall apply accordingly.

(3) Where, after the expiry of the office of an administrator for a notary, the previous notary takes over the office again or the files and books are deposited in safe custody with the newly appointed notary pursuant to section 51 (1) sentence 2, the notary shall continue the official business which the administrator had already begun. The notary shall be entitled to take receipt of those fees which become due after he or she took over the office. However, in the relationship with the party liable to pay the fees, the notary must allow those advances paid to the administrator for a notary before he or she took over the office to be set off.

(4) After the end of the office of an administrator for a notary, the fees to which he or she is entitled shall be collected by the chamber of notaries in its own name. Sections 19, 88 to 90 and 127 of the Court and Notary Fees Act shall apply accordingly. The chamber of notaries may commission a newly appointed notary or a notary who has been reinstated in office with collecting any outstanding fees at its expense.

Division 7

General provisions on administrative proceedings

Section 64a

[Applicability of Administrative Procedure Act, transmission of personal information]
(1) Unless otherwise provided, the Administrative Procedure Act (Verwaltungsverfahrensgesetz) shall apply to administrative proceedings under this Code or under a statutory instrument issued on the basis of this Code.

(2) Courts and authorities shall transmit personal information which the transmitting agency regards as necessary for the appointment of a notary, of a deputy or administrator for a
notary, for the appointment of a trainee notary, for removal of a notary from office or discharge of a trainee notary, for withdrawing or revoking permission, authorisation or exemption, and for instituting proceedings for improper conduct or breach of official duties to the agency responsible for the decision insofar as this does not interfere with the interests of the data subject worth protecting or the public interest overrides the data subject’s interest in secrecy. The data must not be transmitted if this is precluded by specific statutory regulations governing their use. Contrary to section 30 of the Fiscal Code (Abgabenordnung), information on the amount of outstanding tax liabilities may be transmitted in preparation for removal from office pursuant to section 50 (1) no. 6 or no. 8; the competent agency may use the transmitted tax data only for the purpose for which they were transmitted.

Part 2
Chambers of notaries and Federal Chamber of Notaries

Division 1
Chambers of notaries

Section 65
[Formation and seat]
(1) The notaries who are appointed within the district of a higher regional court constitute a chamber of notaries. The Land government or an agency determined by it by way of a statutory instrument may, however, determine, by way of a statutory instrument, that several higher regional court districts, or parts of higher regional court districts, or one higher regional court district together with parts of another higher regional court district constitute the district of a chamber of notaries.

(2) A chamber of notaries has its seat at the place of the higher regional court. In the case referred to in subsection (1) sentence 2, the Land government or the agency determined by it shall determine the seat.

Section 66
[By-laws, state supervision, report]
(1) A chamber of notaries is a corporation under public law. A chamber of notaries’ by-laws and their amendments shall be adopted by the assembly of the chamber (Kammerversammlung); they shall require the approval of the Land department of justice and are to be published in a gazette designated by it.

(2) The Land department of justice shall exercise state supervision over the chambers of notaries. Such supervision shall be limited to ensuring compliance with the law and with the by-laws, in particular the duties assigned to the chambers of notaries.

(3) At the end of the business year each chamber of notaries shall submit to the Land department of justice a report on its activities in the past year and on the situation regarding those notaries and trainee notaries who are active in the chamber of notaries’ area of responsibility.

Section 67
[Tasks]
(1) A chamber of notaries represents its member notaries collectively. It shall exercise oversight over the honour and reputation of its members, support the supervisory authorities in their activities, promote the administration of the law of notaries, and ensure that notaries and trainee notaries exercise their profession conscientiously and fairly.

(2) A chamber of notaries shall be responsible for determining, in guidelines, details of the official duties and other duties of its members under statutory provisions and statutory instruments issued on their basis. Section 66 (1) sentence 2 shall apply accordingly. The guidelines may contain more detailed regulations on

1. maintaining the independence and impartiality of a notary,
2. the conduct to be observed pursuant to section 14 (3),
3. safeguarding third-party asset-related interests,
4. complying with the duty to exercise the office in person,
5. the establishment, conduct, continuation and end of a joint practice or other admissible forms of professional cooperation, and on the sharing of business premises,
6. the types of precautions to be taken pursuant to section 28,
7. conduct to be observed pursuant to section 29, in particular in relation to information concerning official functions, conduct in the public domain, business papers, the use of titles and other professional designations, the inclusion of the notary's name in directories, and the affixing of office signs and name plates under the provisions of Land law,
8. employing and training members of staff,
9. the principles to be observed when recording documents outside of the notarial jurisdiction and office,
10. the required extent of continuing professional training,
11. the specific professional duties in relation to other notaries, courts, authorities, lawyers and other providers of advice to clients.

(3) In addition to the tasks assigned to chambers of notaries by law, it shall be incumbent upon them to

1. make available the funding needed for the continuing professional training of notaries, their assistants and trainee notaries, and for other burdens carried jointly by the profession;
2. regulate the training and examination of notarial assistants;
3. conclude insurance contracts to supplement the professional indemnity insurance under section 19a in order to also insure against those breaches of duty which are not covered by those insurance contracts taken out pursuant to section 19a because the resulting financial losses exceed the insurance cover or because they are excluded from insurance protection under general insurance conditions on account of being intentional acts. The sum insured for each insured notary and for each insured event under these insurance contracts must amount to at least 250,000 euros for damage resulting from deliberate breaches of duty and at least 500,000 euros for damage resulting from other breaches of duty; the benefits paid by the insurer for all losses caused by a notary in one insurance year may, however, be limited to four times the amount of the minimum insurance cover. Section 19a (7) shall apply accordingly. The Land governments or the agencies determined by them by way of a statutory instrument shall be authorised, by way of a statutory instrument and taking account of the possible damages, to determine amounts up to which the insurer's overall benefits may be limited in the insurance contracts for all damage caused by all insured notaries in one insurance year;
4. manage notarial data and technical access authorisations to the Electronic Document Archive and the Electronic Database of Notarial Files;
5. confirm a person's status as notary or administrator for a notary and other official or professional details when issuing qualified certificates; the chamber of notaries may require that such qualified certificates be blocked.

(4) Chambers of notaries may take on other tasks corresponding to the purpose of their establishment. They may, in particular, maintain
1. welfare institutions,
2. pension funds as further regulated under the provisions of Land law,
3. facilities alone or together with other chambers of notaries whose purpose is to conclude, as the insurer, those insurance contracts listed under subsection (3) no. 3 to cover those risks resulting from breaches of duty which have been caused by the intentional acts of notaries,
4. facilities alone or together with other chambers of notaries which enable benefits to be paid without any legal obligation for the following:
   a) damage due to intentional acts by notaries which are not covered by insurance contracts under subsection (3) no. 3,
   b) damage arising on account of documents held in safe custody which can no longer be located and which are not covered by section 19a or by insurance contracts under subsection (3) no. 3 and for which the injured party cannot obtain compensation by any other reasonable means; the amount of the payment is limited to 500,000 euros per document.

(5) Chambers of notaries shall, further, render expert opinions when requested to do so by the Land department of justice, a court or an administrative authority in matters relating to notaries.

(6) The Land department of justice shall immediately inform the chamber of notaries of
   1. the appointment of a notary, administrator for a notary or deputy notary, in each case stating the start and duration of the appointment,
   2. the expiry of the office of a notary or of an administrator for a notary and the revocation of the appointment of a deputy notary,
   3. any temporary removal from office,
   4. the transfer of a notary’s office,
   5. assignment of competence for safe custody to another pursuant to section 51 (1) sentence 2.

(7) (repealed)

Section 68
[Constituent bodies]
The constituent bodies of a chamber of notaries are its executive board and the assembly of the chamber.

Section 69
[Executive board]
(1) Notwithstanding the provision of section 70, the executive board shall exercise the powers of a chamber of notaries. In urgent cases it shall take a decision instead of the assembly of the chamber, whose approval must be subsequently obtained.
(2) The executive board comprises a president, a deputy and further members. The members of the executive board shall be elected by the assembly of the chamber for a four-year term of office.
(3) Where notaries appointed to exercise the office as a main occupation and lawyers commissioned as notaries are appointed in the chamber of notaries’ district, the president and at least half of the other members of the executive board must be notaries appointed to exercise the office as a main occupation.
Section 69a

[Obligation of confidentiality, professional privilege]

(1) The members of the executive board shall be bound to maintain confidentiality vis-à-vis every person – even after they retire from the executive board – concerning those matters relating to notaries, trainee notaries, applicants for the office of notary and other persons which become known to them whilst serving on the executive board. The same shall apply to employees of the chambers of notaries and of other facilities and institutions referred to in section 67 (4) as well as to notaries and trainee notaries whose services are enlisted by the chamber of notaries or its institutions and facilities.

(2) Without having been granted permission to do so, the persons referred to in subsection (1) may not testify in court proceedings on such matters relating to notaries, trainee notaries, applicants for the office of notary and other persons which become known to them whilst serving on the executive board.

(3) Permission to testify shall be granted by the executive board of the chamber of notaries. Permission shall be refused only if this is unavoidably necessitated by concerns for the status or tasks of a chamber of notaries or the justified concerns of a person about whom facts have become known. Section 28 (2) of the Federal Constitutional Court Act (Bundesverfassungsgerichtsgesetz) shall remain unaffected.

Section 69b

[Formation of sections]

(1) The executive board may establish several sections where permitted under the chamber of notaries’ rules of procedure. It shall delegate those matters to the sections which they are to manage independently.

(2) Each section must comprise at least three members of the executive board. The members of each section shall elect a chair and a deputy from amongst their midst.

(3) Before the start of each calendar year the executive board shall determine the number of sections and their members, shall delegate business to the sections and determine the members of the individual sections. Each member of the executive board may be a member of several sections. These arrangements may be altered in the course of the year only if this becomes necessary on account of a section's heavy workload or as a result of new members joining a section or individual members being unable to carry out their duties on a permanent basis.

(4) The executive board may authorise the sections to hold their meetings somewhere other than the place where the chamber of notaries has its seat.

(5) Within their respective area of competence the sections have the same rights and duties as the executive board.

(6) The executive board shall decide in lieu of a section if it deems this to be appropriate or if the section or its chair makes an application therefor.

Section 70

[President’s tasks]

(1) The president represents the chamber of notaries both in and out of court.

(2) The president facilitates the course of business of the chamber of notaries and of the executive board.

(3) The president chairs the meetings of the executive board and of the assembly of the chamber.

(4) Further tasks may be assigned to the president under the by-laws.

Section 71

[Assembly of chamber]

(1) The assembly of the chamber shall be convened by its president.

(2) The president must convene the assembly of the chamber once a year. The president must, further, convene the assembly of the chamber if one tenth of the members make a
written application therefor and must indicate the matter which is to be dealt with at the assembly.

(3) The assembly of the chamber shall be convened at least two weeks ahead of the date on which it is to be held, in writing or by public invitation in the publications designated in the by-laws and indicating the agenda. The date on which the invitation is sent out and the date of the assembly of the chamber shall not be included when calculating this convening period. In urgent cases the president may convene the assembly of the chamber at shorter notice.

(4) In particular, the assembly of the chamber shall be responsible for

1. adopting the chamber of notaries’ by-laws pursuant to section 66 (1) sentence 2;
2. adopting the guidelines pursuant to section 67 (2);
3. determining the amount and due date of the membership dues;
4. approving the funds needed to cover expenses associated with matters of common interest;
5. auditing the executive board’s accounts of the chamber of notaries’ receipts and expenditures and the administration of its assets, and approving these accounts.

Section 72
[Enactment of by-laws]

Further details concerning a chamber of notaries’ constituent bodies and their competences shall be laid down in the by-laws.

Section 73
[Membership dues]

(1) A chamber of notaries shall levy membership dues from the notaries insofar as this is necessary to fulfil its tasks.

(2) Outstanding membership dues may be collected on the basis of a request for payment issued by the president of the chamber of notaries together with a certificate of enforceability and the official seal of the chamber of notaries pursuant to the provisions applicable to the enforcement of judgments in civil-law disputes.

Section 74
[Right to information]

(1) A chamber of notaries may, in the exercise of its powers, require notaries and trainee notaries to provide information, to present books and files, and to appear in person before its competent constituent bodies. A chamber of notaries shall be authorised to pass on to the facilities and institutions referred to in section 67 (4) those insights which it gains therefrom insofar as these are needed by the facilities and institutions in the fulfilment of their tasks.

(2) After issuing a prior written warning, a chamber of notaries may impose a penalty payment – even more than once – in order to prompt a notary or trainee notary to fulfil the duties laid down in subsection (1). The penalty payment may not exceed 1,000 euros in each instance. The penalty payment shall accrue to the chamber of notaries; it shall be collected in the same way as outstanding membership dues.

Section 75
[Admonition, objection]

(1) Chambers of notaries shall be authorised to issue an admonition to notaries and trainee notaries for improper conduct of a less serious nature.

(2) The notary or trainee notary is to be heard before an admonition is issued. An admonition may no longer be issued once more than five years have elapsed since the improper conduct.

(3) The admonition must be reasoned. It shall be served on the notary or trainee notary. A copy of the notice shall be notified to the supervisory authority.
(4) The notary or trainee notary may file a written objection to the notice with the executive board of the chamber of notaries within one month of service. The executive board shall decide on the objection; subsection (3) shall apply accordingly.

(5) If the objection to the admonition is rejected by the chamber of notaries’ executive board, the notary or trainee notary may apply to the higher regional court, sitting as disciplinary court for notaries, for a decision. The application must be made in writing within one month of service of the decision on the objection and must be reasoned. The higher regional court shall take a final decision by order. In all other respects, the provisions of the Federal Disciplinary Act (Bundesdisziplinargesetz) on disciplinary proceedings before the administrative courts shall apply accordingly to the court proceedings. Insofar as the costs of the proceedings are imposed on the service employer under these provisions, the chamber of notaries shall take the place of the service employer.

(6) An admonition issued by a chamber of notaries shall be without prejudice to the supervisory authority’s right to take measures pursuant to section 94 or by way of disciplinary proceedings. If the supervisory authority avails itself of this right, the authority of the chamber of notaries shall lapse; an admonition which has already been issued shall cease to be effective. If the higher regional court has, however, revoked the admonition because it has found no improper conduct, the exercise of supervisory and disciplinary authority on account of the same conduct is permissible only on the basis of such facts or evidence as were not known to the court when it gave its decision.

Division 2

Section 76
[Formation, seat]

(1) The chambers of notaries together constitute the Federal Chamber of Notaries.

(2) The seat of the Federal Chamber of Notaries shall be determined in its by-laws.

(3) The Federal Chamber of Notaries may fulfil other tasks corresponding to the purpose of its establishment. It may, in particular,

2. manage notarial data and
3. support electronic communication between notaries and the courts, authorities and other third parties, as well as the keeping of electronic files and other electronic data processing by notaries.

1. the president of the regional court in respect of notaries and trainee notaries in that regional court district;

2. the president of the higher regional court in respect of notaries and trainee notaries in that higher regional court district;

3. the Land department of justice in respect of all notaries and trainee notaries in that Land.

Section 93
[Powers of supervisory authorities]
(1) It shall be incumbent upon the supervisory authorities to regularly audit and monitor the performance of official functions and the service of trainee notaries. Additional interim audits and random checks shall be permissible without special reason. In the case of a newly
appointed notary, the first audit shall be carried out within two years of his or her taking up office.
(2) The subject matter of the audit is the proper performance of the official functions of a notary. The audit shall also cover the office premises, the keeping and safekeeping of books, inventories and files, the proper automated processing of personal data, the proper holding in safe custody of valuables, the notification in good time of when deputies are appointed, as well as the existence of professional indemnity insurance. In any case, a large number of documents and ancillary files are to be examined as well as cost calculations audited.
(3) Competence for carrying out the audit is based on the provisions enacted in that regard by the Land department of justice. After having heard the chamber of notaries, the supervisory authority may enlist the services of notaries to assist in conducting the audits. The services of public officials in the judicial administration may also be enlisted to examine and audit the inventories and books and to examine the cost calculations and invoicing of fees, including their collection, and items deposited in safe custody and the like; these public officials shall have no power of oversight. Where a notary’s cost calculation and cost collection is already being audited by a person commissioned by the Notaries’ Fund, no audit shall be necessary.
(4) Notaries shall be obliged to present for inspection and to hand over to the supervisory authority or the person commissioned by it to conduct the audit their files, inventories and books, and any documents deposited in their safe custody, to grant access to the devices used to automatically process personal data, as well as to provide the required means of accessing them. Persons with whom a notary has or had a joint practice or with whom a notary shares or shared business premises shall be obliged to provide the supervisory authority with information and to present files insofar as this is necessary to verify compliance with the prohibitions of participation. The same shall apply to third parties with whom a notary has or had a joint practice within the meaning of section 27 (1) sentence 2.

Section 94
[Disapproval]
(1) The supervisory authorities shall be authorised to express their disapproval of notaries’ and trainee notaries’ improper conduct and breaches of duty of a less serious nature. Section 75 (2) and (3) sentence 1 and sentence 2 shall apply accordingly.
(2) Notaries and trainee notaries may file a complaint, in writing and within one month of service, against such expression of disapproval with the supervisory authority which expressed it. The supervisory authority may remedy the complaint. If it does not do so, the next highest supervisory authority shall decide on the complaint. The decision must be reasoned and served on the notary or trainee notary. If the complaint against the expression of disapproval is rejected, the notary or trainee notary may apply to the higher regional court, in its capacity as the disciplinary court for notaries, for a decision. Section 75 (5) sentences 2 to 4 shall apply accordingly.
(3) Expressions of disapproval shall be issued without prejudice to the right of the supervisory authorities to take disciplinary measures. If a supervisory authority avails itself of that right, the disapproval shall cease to be effective. However, if the higher regional court has revoked the disapproval because it has found no improper conduct, the exercise of the power to take disciplinary measures on account of the same conduct shall be permissible only on the basis of such facts or evidence as were not known to the court when it gave its decision.

Division 2
Disciplinary proceedings

Section 95

Notaries and trainee notaries who culpably breach the official duties incumbent upon them shall be deemed to have committed a disciplinary offence.
Section 95a
[Limitation period]
(1) Prosecution shall no longer be permissible once more than five years have elapsed since commission of a disciplinary offence which does not justify dismissal for a definite period or on a permanent basis or dismissal from the previous location of office. This period shall be interrupted by the institution of disciplinary proceedings, the filing of a disciplinary action or the filing of an additional disciplinary action. It shall be suspended for the duration of opposition proceedings, court disciplinary proceedings or for the duration of the suspension of disciplinary proceedings in accordance with section 22 of the Federal Disciplinary Act.
(2) Where criminal proceedings have been instituted on account of the same facts before the expiry of the time limit, the time limit shall be suspended for the duration of the criminal proceedings.

Section 96
[Applicability of Federal Disciplinary Act]
(1) Unless otherwise provided under this Code, the provisions of the Federal Disciplinary Act shall apply accordingly. The tasks and powers assigned to superior officials under these provisions shall be exercised by the supervisory authorities, the tasks and powers of the highest service authority by the Land department of justice.
(2) A person who is qualified to hold judicial office is to be commissioned with carrying out the investigations. The court may request judicial assistance from the local court under section 25 (2) of the Federal Disciplinary Act when it comes to carrying out an examination by the court.
(3) The provisions of the Code of Administrative Court Procedure (Verwaltungsgerichtsordnung) on the participation of honorary judges which are applicable under section 3 of the Federal Disciplinary Act shall not apply. The time limits set out in section 3 of the Federal Disciplinary Act read in conjunction with section 116 (2) and section 117 (4) of the Code of Administrative Court Procedure shall be five weeks in each case.
(4) Provision may be made under Land law to the effect that section 41 (1) sentence 1 of the Federal Disciplinary Act shall not apply. The Land governments shall be authorised to delegate the tasks and powers referred to in subsection (1) sentence 2 by way of a statutory instrument to the authorities subordinate to the Land department of justice. The Land governments may, by way of a statutory instrument, delegate this authorisation to the Land departments of justice.
(5) The provisions of Title 17 of the Courts Constitution Act (Gerichtsverfassungsgesetz) shall apply to legal redress for excessive length of court proceedings. The provisions of this Code concerning appointments to the higher regional court and to the Federal Court of Justice in disciplinary proceedings against notaries shall not apply.

Section 97
[Disciplinary measures]
(1) The following measures may be imposed in disciplinary proceedings:
   1. a written reprimand (Verweis),
   2. a fine,
   3. dismissal.
A written reprimand and fine may be imposed in parallel.
(2) Notaries appointed to exercise the office as a main occupation may also be dismissed from their previous location of office by way of a disciplinary measure. In such a case, the Land department of justice must without delay assign the notary to another location of office after the decision becomes final and after having heard the chamber of notaries. A fine may also be imposed in addition to dismissal from the previous location of office.
(3) Lawyers commissioned as notary may also be dismissed for a definite period by way of a disciplinary measure. In such a case, re-appointment may be refused only if the lawyer
commissioned as notary is found guilty, in the meantime, of conduct which makes him or her appear unworthy of once more exercising the office of notary.

(4) A fine of up to 50,000 euros may be imposed against notaries and a fine of up to 5,000 euros against trainee notaries. If the act occasioning the fine was committed out of avarice, the fine may amount to up to double the advantages gained.

(5) In the case of a lawyer commissioned as notary, dismissal under subsection (1) sentence 1 no. 3 shall also have the consequence of disbarment from the legal profession.

Section 98
[Disciplinary order, disciplinary action]
(1) A written reprimand and a fine may be imposed by disciplinary order issued by the supervisory authority. Where the penalty is to be dismissal, dismissal from the previous location of office or dismissal for a definite period, a disciplinary action is to be brought against the notary. Section 14 (1) no. 2 of the Federal Disciplinary Act shall apply accordingly to dismissal from the previous location of office and dismissal for a definite period.

(2) The president of the regional court may only impose fines against notaries of up to 10,000 euros, against trainee notaries of up to 1,000 euros.

Section 99
[Disciplinary courts]
The disciplinary court of first instance for notaries shall be the higher regional court, the disciplinary court of second instance the Federal Court of Justice.

Section 100
[Delegating tasks by statutory instrument]
Where several higher regional courts have been established in one Land, the Land government may, by way of a statutory instrument, delegate the tasks assigned under this Code to the higher regional court in its capacity as the disciplinary court to one or several higher regional courts or the highest regional court for the districts of all or several higher regional courts if this serves to ensure consistency in court decisions. The Land governments may delegate these authorisations by way of a statutory instrument to their Land departments of justice.

Section 101
[Composition of higher regional court]
